

PRICE FIVE CENTS

\$300,000 FOR AVIATORS WHO CIRCLE GLOBE

Panama-Pacific Exposition I

Planning Aeroplane Race Around the World

EVENT OPEN TO ALL CRAFT

Aero Club of America Has

Begin in May, 1915

aeronauts who race around the world in any type of motor-driven aircraft under the auspices of the Panama-Pacific International exposition company. Of this sum, \$150,000 will be given direct by the exposition company and subscription arrangements on foot for securing the remainder are said to indicate an even larger sum than \$100,000. It is said to be the largest prize fund ever offered for a single sporting event.

The race, the climax of the world's aeronautical activities, is to start early in May, 1915. Contestants will be allowed 80 days in which to make the circuit of approximately 22,000 miles around the globe. The race starts and finishes on the grounds of the Panama-Pacific exposition and the course lies east from San Francisco.

Proposed Route.
The route as now outlined crosses the Atlantic ocean, England, France, Germany, Russia, Japan, and the Pacific ocean, touching the world's brilliant capitals, the Arctic, the sub-poles of the north, and the Siberian waters. Specifically, the line in America runs from San Francisco, through Reno, Nev.; Cheyenne, Wyo.; from there either to Kansas City, St. Louis or Chicago and on to New York. ~~One of the roads is considered to be the most formidable stretch in the race. It will be essayed from Balt-~~

land and Labrador, Cape Farewell, Greenland, the next stop, burning a drop into the water, is 40 miles away, and from Cape Farewell to Reykjavik, Iceland, is 40 miles further. One more jump to Stornaway, in the Hebrides, is 50 miles, and the Atlantic has been crossed.

First Prize Is \$100,000.

That none of these three distances is impossible now experts assert, is shown to them by a recent flight of 600 miles, the French aviator, who did it, from Paris to the Mediterranean, from Genes, France, to Tunis, Africa.

From the Hebrides to Edinburgh, London, Paris, Berlin, Warsaw, St. Petersburg, Moscow and about the trans-Siberian railway, down into Manchuria and Korea and across to

northern Japan to Kamohatka with varying routes across the little gap which separates Asia from North America, an obstacle likely to be met is insurmountable, it is declared. Vancouver, B. C., Seattle and Tacoma, Portland, Ore., and San Francisco again—and the world is belted.

The exposition's \$100,000 will be broken into three prizes, one of \$40,000, a second of \$30,000 and a third of \$30,000. Distribution of the prizes of \$10,000 will be announced later. These funds

ROAD MEETING TO TAKE UP SPRINGS AUTO RACE

Feasibility of Cross-Colorado Contest Will Be Discussed at Convention Here February 11

The practicability of an "Across Colorado in 24 Hours" road race by automobile will be considered at the third annual convention of the Lincoln Highway association of Colorado in Colorado Springs, February 11. The primary purpose of the race is to develop the Pike's Peak route, which is the highway through Colorado fostered by the association. The plan of crossing the state from the Kansas line to the Utah border in 24 hours is considered feasible by those familiar with the route, and the accomplishment of such a feat would demonstrate the thorough practicability of the Pike's Peak route as the most east and west highway across the state of Colorado.

The race as planned would start at an altitude of 4,800 feet above the sea, and the highest altitude would be 10,400 feet, almost two miles above sea level. The first third of the distance of 550 miles would be across prairie road, improved, from the state line near Burlington, via Limon to Colorado Springs. At Manitou, the mountain ascent would begin with Ute Pass, thence the trip would be across South Park, to Buena Vista, along the Arkansas river to Leadville, crossing the Continental divide on a grade of 14 per cent over Tennessee Pass, down the valley of the Eagle river, up and over Battle mountain, through the canon of the Grand river to Glenwood Springs, and westward to the Utah line.

Another question for consideration at the convention will be the federation of roads through several states where by the Pike's Peak route will become a link in a great coast-to-ocean highway. For some months the Lincoln Highway association of Colorado has been in touch with organizations in Kansas, Utah and other states, east and west, to secure consideration of the federation project.

The advantages of a great central highway, in directness, in the attractiveness of the country through which it passes in point of scenic beauty and in many other ways, are well known, and with the prestige which a national organization would give, it is believed that such a route would attract a great share of the transcontinental travel, in 1915 and succeeding years.

Prof. Clark Speaks at College Vespers

'Tale of Modernism' Rev. Robjert's Theme

The Rev. Thomas S. Robjert preached at All Souls church yesterday morning on "The Priest, a Tale of Modernism," a book which has created much discussion in religious circles.

Those who attend this church, said Mr. Robjert, know that I refrain invariably from anything that may seem to be a criticism of other denominations. If there is one word in which I have a graver hatred than another, it is the word "bikory," and this refers equally to the liberal and conservative standpoints.

This book, however, cannot be read by it. It has run through the first edition and the second which has just been issued is being rapidly absorbed. The book is cast in the form of fiction and in a brief preface the author tells us why. Modernism begins with the scholar. It is ending with the movement of artistic scholarship concerned with debates as to the date of authorship of certain ancient scriptures, and the validity of venerable texts and institutions. It has developed into a fierce and unrelenting conflict, which has been forced upon many devout souls, the conflict between sincerity and enforced conformity, between truth and life's tenderest affection, between the mind that would follow the new light and the heart that would cling to its life long loyalties.

Strange Mysteries of Struggle:

This struggle, said Robjert, is fought out in the presence of strange spectators, on the one hand, "lonely," ignominious poverty on the other hand, honor, fidelity, and the memory of those who, from age to age, have consecrated their lives. This is a struggle which the honest man, who is not a hypocrite, is under the necessity of being a life story, although set thus in fiction form.

Briefly the story is that of a young priest of the Roman Catholic church, carefully trained in the dogmatic and the liberal, first in a Jesuit college and later in a seminary, noted as being particularly safe. He enters upon his ministry fully equipped in theology and canon law, with a degree of doctor in divinity.

Of scientific history, however, Robjert knew scarcely anything, and of such sciences as sociology and comparative religion he had heard the name. Thrown in his first parish, into contact with liberal, thoughtful and friendly men, he absorbed the thought of the day, and finds in it the answer to the cry of his intellect. In the sequel he is crushed under the wheels of ecclesiasticism and at last forth his church as an estate.

The questions he and every other such man has to face are: Dare I follow the new light? Am I brave enough to withstand creeds and archbishops? I have the right to join that company of outcasts who in every age have sacrificed even life's dearest affections at the call of truth or justice ideal.

Many Face Same Question.

Men have had to face the same question in Protestantism but the day has come when heretics titles are regarded by the thinking people of the world as little less than a curse, and the hero of such trials very often establishes a reputation for exceeding his gifts but in the Roman Catholic church the victors so far have been on the side of ecclesiasticism. What is known as modernism has been practically exterminated in that church. Its disciples have either locked their manuscripts in their desks and consented to sign or denying the edict have passed out from the borders of the church, to come forth into the shadow of poverty, or of holding their heads aloft as champions of liberalism in other denominations.

One could hope that the future which the author draws of newly created and deliberate change by a venerable bishop of impurity, the betrayal of arrogance and ecclesiastic narrowness, makes out a blood tinge and yet I am afraid that the portrait is only too true.

The duel was to life death a duel between the intellect of man and the authority of a church. It may seem to have ended with the crushing of modernism, but the struggle has only been deferred. The truth has only been little question as to where will be the ultimate victory. Meanwhile the man who fears to even die for the truth is not the man of the hour. A words ring out above the tumult of such a struggle, "Let them fear, let them shrink, let traitors turn away."

"Whatever we have dared to think," said the author, "we have also dared to do."

LITTLE PUCK COMPANY PLANS REORGANIZATION

Stockholders Will Meet Here Next Saturday to Determine Company's Future Action

Stockholders of the Little Puck Gold Mining company will meet in the Mining exchange building, this city, Saturday, to consider the proposed plan of reorganization which was submitted to them several weeks ago. An adjourned meeting of the company was held last Saturday, but the plan was not taken up.

Under the proposed plan the stockholders will organize under the laws of Colorado a corporation with a capital stock of \$20,000 shares of the par value of \$1. The corporation will be known as the "Little Puck Mines company," organized to take over the property of the original Little Puck Gold Mining company, declared a defunct corporation by the secretary of state. The old company owes approximately \$2,500 in taxes, and \$1,000 in debts were incurred solely for money advanced and back taxes it has been shown. The company is insolvent and is about to go to tax court.

To Preserve Company Property.

Many of the stockholders believe that there is a prospective value to the property of the company, have decided that some plan should be adopted whereby such prospective values may be preserved. It is recommended that negotiations be entered into for the purchase at any time before March 1, 1914 of the interests held by Isaac Kahn, a stockholder under a certificate outstanding, the amount of purchase being the amount of a fund of \$4,000 out of which the new company would be organized. The plan further contemplates the following proposals:

1. The raising of a fund of \$10,000.
2. That stockholders be requested to subscribe to said fund at the rate of \$1 for each 100 shares held in the Little Puck Gold Mining company to be paid to the Colorado Title and Trust company as trustees in their behalf on or before February 1, 1914.
3. That if said fund is not paid by that date others be requested to subscribe at the same rate and within the same time limit, and that if the plan is not carried out by that date the new company be organized and the fund be paid to it.
4. That if said fund be not paid by that date the stockholders be requested to subscribe to said fund at the rate of \$1 for each 100 shares held in the Little Puck Gold Mining company to be paid to the Colorado Title and Trust company as trustees in their behalf on or before February 1, 1914.
5. That if said fund is not paid by that date others be requested to subscribe at the same rate and within the same time limit, and that if the plan is not carried out by that date the new company be organized and the fund be paid to it.
6. That if said fund is not paid by that date others be requested to subscribe at the same rate and within the same time limit, and that if the plan is not carried out by that date the new company be organized and the fund be paid to it.
7. That if said fund is not paid by that date others be requested to subscribe at the same rate and within the same time limit, and that if the plan is not carried out by that date the new company be organized and the fund be paid to it.
8. That if said fund is not paid by that date others be requested to subscribe at the same rate and within the same time limit, and that if the plan is not carried out by that date the new company be organized and the fund be paid to it.

Deaths and Funerals

Mrs. Elizabeth Boardman, aged 88, died at 11:30 a. m. yesterday morning at the home of her son, W. B. Boardman, 207 S. Kansas, and Mrs. Boardman had had a long illness.

Mrs. Boardman was born in Colorado Springs in 1825, and was well known here. She is survived by two sons, W. B. Boardman, a local mining man, and J. B. Boardman, the funeral director, who will hold the funeral at 10 o'clock tomorrow morning from the home of the deceased at 207 S. Kansas.

Deaths and Funerals

Mrs. F. P. Sherman, aged 71, died yesterday at her home, 14 North Cascade Avenue. She came to Colorado Springs four years ago on account of her health. The body will be taken to her former home, Louisville, Ky., today.

Deaths and Funerals

Charles Matthew Connor, of 15 West Kansas street, died at his home last night after an illness of nearly a month. He was 28 years old and came to Colorado Springs five years ago from Nevada. His father was a member of the Pike lodge and the Knights of Columbus of this city. Mass will be read tomorrow morning at 10 o'clock at St. Mary's church after which the body will be sent to Seattle.

Deaths and Funerals

Mrs. F. P. Sherman, aged 71, died yesterday at her home, 14 North Cascade Avenue. She came to Colorado Springs four years ago on account of her health. The body will be taken to her former home, Louisville, Ky., today.

PERRY PARK TO CASTLE ROCK ROAD IS OPENED

After being closed for more than nine weeks, the road between Perry park and Castle Rock was opened yesterday by John Gray of the former place, according to a special phone message received by The Gazette last night. This makes a clear road for travel between Colorado Springs and Denver via Perry park.

Mr. Gray opened the road with an automobile, and six hours were required to travel the distance of 10 miles between Perry park and Castle Rock.

Despite an route from Denver to Colorado Springs by automobile have been trying for weeks to make the trip over this route, but have been unable to do so on account of the heavy drifts which filled the draws and cuts. Now that the road is open it will be the best route for travelers to take from the Springs toward Denver.

AUTOS GO TOGETHER AT LAS VEGAS AND NEVADA

Collision Causes One Car to Overturn, but Passengers Escape With Cuts and Bruises

Two automobiles collided at the junction of Nevada avenue and Las Vegas street yesterday afternoon and although the six or eight passengers received numerous cuts and bruises, none of the injuries will prove serious, according to reports last night.

H. C. Newton, of Pueblo was driving one car which was going west on Las Vegas. He said that he had started to cross Nevada avenue at slow speed and that the other machine, which is said to belong to Dr. Cooper of 1420 Colorado avenue, came from the south and struck him amidships. Newton's car was overturned and he and three passengers, Mr. and Mrs. E. C. Woodmansey and Miss Lucille Stetright were thrown out. The windshield held the overturned car several inches above ground and those underneath were taken out with little difficulty.

Dr. Cooper assisted in fighting the car and both machines were driven away under their own power.

HELEN KELLER WILL GIVE LECTURE HERE

(Continued From Page One.)

She was decidedly successful had commented to appear on the lecture platform throughout the country.

Being able to give voice to the thoughts of her active brain, Helen Keller brings a message that is full of sunshine which she in her blindness sees more fully than many who have sight. It is a message addressed to those who have eyes but see not, and having eyes, hear not for no one can hear Helen Keller's optimism and cheerfulness without being thankful for what she is deemed to be the ordinary faculties of life.

Teacher and Scholar Inseparable.

The name of Helen Keller can never be separated from that of Mrs. Maxey, the teacher and companion of 15 years who guided the gates for her to the outside world. One hardly knows whom to admire the more the scholar or the teacher. As they have never been separated those many years ago they are not separated on the lecture platform.

Mrs. Maxey will speak first telling how she came to teach Helen Keller, how the first was able to communicate with the child's mind through a natural craving for a doll, the how other words and ideas came one by one, and how finally one day the whole system of thought glided down on Helen Keller and the barrier to the outside world was passed. It was still difficult going but Mrs. Keller's indomitable will and Mrs. Maxey's patience forced the door to speak was the hardest of all to teach for every vocal movement had to be learned and imitated. Mrs. Keller.

Only after 10 years is she able to make herself heard and understood by audience. But she can speak and she has her own power to spread cheer and happiness.

When Mrs. Maxey explains that these preliminary stages in explanation that Helen is introduced and by her teacher's side as a deliverer of messages. The desire to speak was the hardest of all to teach for every vocal movement had to be learned and imitated. Mrs. Keller.

Thousands Watch 20 Hotel Guests Battle for Lye

NEW YORK Feb. 1—Twenty guests of the Hotel Times square in Forty first street, were trapped in their room last night by a fire which started in the kitchen in the basement and spread to the hotel.

The guests of the hotel were awakened by the fire and rushed to the roof. Mrs. Maxey, the teacher and companion of 15 years who guided the gates for her to the outside world, was among the guests of the hotel.

The guests of the hotel were awakened by the fire and rushed to the roof. Mrs. Maxey, the teacher and companion of 15 years who guided the gates for her to the outside world, was among the guests of the hotel.

The Most Talked-About Car in the Country

See This Innovation

A few days ago the first Six-40 was shipped from the HUDSON factory. Before this time the first month's output had been ordered by users who had not seen the car.

They were sold on these startling facts:

- That the streamline body, the equipment, the new features were like the latest HUDSON Six-54, the handsomest car of the season.
- That the weight would be under 3,000 pounds—under any comparable Four.
- That the operative cost would be less than any equal-powered Four.
- That the price would be \$1750, f. o. b. Detroit way below the price of Fours of equal power and size and class.

Think What This Means

Sixes have been high-priced, heavy, costly to operate. For that reason many have been forced to buy Fours.

Now comes this Six-40. It weighs 500 pounds less than last year's HUDSON "37" a Four. It costs one-fourth less to operate. And it far outclasses any Four in its class.

You legions of men who saw lightness and economy find them now in this Six-40—beyond any Four you know.

A Distinguished Car

In addition, here is the new streamline body. Here are all the new features which characterize the new HUDSON Six-54.

Disappearing tonneau seats. Gasoline tank in cowl dash. Left side drive. Extra tires ahead of the front door.

Up to six months ago, no car at any price offered so many attractions.

And a car designed by Howard E. Coffin, the great HUDSON engineer. A car that embodies all the best HUDSON standards.

Our first Six-40 has just arrived. It is now on exhibition. Come, see it and ride in it while it is new. The car marks a new era in motor-car history, and all of you should know it.

DON'T DRIVE AUTO IN RUTS, AND YOU WILL HELP ROADS

This Habit Will Quickly Ruin Highways and Should Be Stopped

Have you ever stopped to think that you, Mr. Automobile owner, can do a lot to help along the good roads movement and preserve the surface of the highways without so much as donating a cent toward their upkeep?

It is not meant that you are to be exempt from doing your share toward helping to solve the problem of "good roads" for the future. It is a privilege of the gasoline-powered vehicle to be in the pleasures and business advantages of a car and in traveling from town to town, city to city and state to state.

When an automobile owner driver strikes a piece of bad road he surely realizes it and either expresses or feels dissatisfaction. Very often however, others of his kind are responsible for his condition.

For the year of 1914 why not make a resolution that you will do your little share toward preserving the good roads, and the name the "bad ones"?

The first and most important lesson in preservation of the highways is a sound in the motto adopted by the good roads clubs in Texas: "Don't Drive in the Rut!"

Examples innumerable in all parts of the country might be quoted when fine pieces of highway or a transit road in its entirety has been destroyed by automobilists who persist in traveling on exactly the same rut as the other fellow.

How often have you seen a well-oiled country road in fairly good condition, and a new section of highway just built become almost impassable by constant usage of a rut that has first made its mark on the road with the tread of a wheel.

Almost without exception every piece of good road in the country is soon or later destroyed by carelessness on the part of the owner, or his chauffeur. Six inches of a road that is often 12 feet wide is called upon to stand the strain of the rut lines that a car makes over it.

At present the rut is the most common cause of highway destruction. It is a habit that can be broken. It is a habit that can be broken. It is a habit that can be broken.

OWNERS OF CUP DEFENDERS MEET IN N. Y. THIS WEEK

BOSTON, Feb. 1—With the construction of three aspirants for American cup defending honors well under way at Bristol, R. I. Bath Me, and Newport owners and managers will gather in New York this week to discuss and probably arrange a racing schedule for the season. The meeting will be held at the New York Yacht club, of which nearly a hundred of the three boat members.

It is expected that the yacht race will start in upper Long Sound during the first week in March. Some of the yachtsmen want an early start, however, off Sandy Hook regular cup course before the 8th of April. But the greater part of the racing will be off Newport, and it is from Old London's Reef Lightship that the tidal races are likely to be held about mid-August.

GIANTS AND SOX PLAY IN STADIUM SEATING 100,000

ROME Feb. 1. The American baseball players of the National and American leagues, who have been on a world tour, are expected to reach here Feb. 10. They will be received in an exhibition game at the stadium which seats 100,000 spectators.

Pittsburg Feds After Cree of N. Y. Americans

SUNBURY, Pa., Feb. 1.—Manager Gessler of the Pittsburg Federal League baseball club came here today in effort to induce Birdie Cree, the New York American outfielder, to sign a three-year contract with the Federal League. Cree asserted he had been offered \$8,000 and that he had taken Gessler's offer under consideration.

LOWERS WORLD'S RECORD FOR 31-2 FURLONGS

PASADENA, Feb. 1.—Supreme Court today from the James Butler stable, filled a fifth of a second off the 31-2 furlong record for three and a half mile race today at the Turf track, running in a distance of 31-2 furlongs.

The race, which was formerly held by a horse named "The Great One," failed today in his attempt to lower the record for the mile made 24 years ago by "Satan." His time was 1:39.4, four seconds slower than that of "The Great One."

COUNT BONI DIVORCE CASE AGAIN REOPENED

ROMA, Feb. 1.—The suit of Count Boni de Castellane for an annulment of his marriage with Miss Anna Gould, Duchess de Tallandier, was reopened today before the tribunal. On January 10 the court, composed of the President of the Republic, the President of the Senate, and the President of the Chamber of Deputies, had rendered its verdict in the divorce case, and the case now comes up as a matter of regular procedure.

\$300,000 FOR AVIATORS WHO CIRCLE GLOBE

(Continued From Page One)
will come from individuals and from cities along the line of flight.
Race Open to All Entrants.
Monoplanes, biplanes, dirigibles, flying boats of any sort are welcome in the race. The work of organization will fall to Arnold Kruckman, whose appointment as the manager of the bureau of aeronautics of the exposition was announced today. Mr. Kruckman formerly was secretary of the Aeronautical society in New York and has to his credit the arrangement of the flight of Glenn H. Curtiss from Albany to New York in the early days, and the later transcontinental flight in which Robert Fowler and Calbraith Rogers participated. He will start east in a few weeks in a path-making trip around the world.
Following the start of the race itself, there will be a week's flying program, with prizes, totaling \$25,000, offered by the exposition.
"The flight around the world in 90 days is practicable today," said Mr. Kruckman tonight. "A year from now, with advances which will have been made in the structure of aircraft, it will be twice as simple."
As a sporting event, the race will be under the auspices and jurisdiction of the Federation Aeronautique Internationale. Sanction from the American branch of this organization, the Aero Club of America, was received here today.

Club Sanctions Event.

NEW YORK, Feb. 1.—The Aero club of America announced today that it had given its sanction to an airplane race around the world to be started from the Panama-Pacific exposition grounds in San Francisco in May, 1915, and to be completed at the same place within 90 days. The first prize will be \$100,000.
The sanction was given upon the receipt of telegrams stating that the Panama-Pacific exposition and the Pacific Aero club of San Francisco were organizing such a race and that application for sanction had been mailed.
"The telegrams state," says the club's announcement, "that the exposition offers \$150,000 in money prizes and expects to obtain at least \$150,000 more, which will be divided among the contestants, the first prize to be \$100,000. The race is to be run under the rules of the International Aeronautic federation. The Aero club of America, as representative of the federation in America will officiate."
"The telegram received from the exposition officials states the plan is to have the race open for any type of motor-driven aircraft. President Gust T. Slaughter of the Pacific Aero club advises that full particulars and the application for sanction have been mailed and will be received at the Aero club of America by February 4.
"Mr. Alan R. Hawley, president of the Aero club of America, wired the club congratulations, assuring both the officials of the Panama-Pacific exposition and Pacific Aero club that they have the Aero club of America's full cooperation."

Fragrance From Bunch of Violets Temporarily Clear Woman's Mind

LOS ANGELES, Feb. 1.—Fragrance from a bunch of violets cleared a little rift today in the clouded mind of Miss Nanette Warren, the Toledo, O. woman who went insane while watching for many days by the body of her dead sister Mary, in a little apartment here. The violets were sent in by some one who had heard of the sisters' sad fate and when she saw them, Miss Nanette made her first intelligible remark since her arrest.
"I do like violets," she said casually.
Under questions she recalled her home town, but soon became troubled and stopped talking.
She will appear before the lunacy commission tomorrow.
Friends of Miss Warren say she has been in a similar mental state before, and may become normal again.
E. F. Mace of Toledo telegraphed to the coroner that he was living at the Warren homestead, and held a power of attorney for her Toledo affairs. He said that if desired he would come to help settle matters in Los Angeles.

NIECE OF GEN. LOGAN DIES IN NORTHWEST

BREMERTON, Wash., Feb. 1.—Dr. Carl E. Logan, an educator of Washington D. C. daughter of the late Captain H. C. Logan U. S. A. and niece of the late General John A. Logan died here today of heart disease. She was 37 years old and came west in August 1912 because of ill health.

You'll find it sells Poslam For free sample write to: Emergent Laboratories, 32 West 25th St., New York.
Poslam Soap will do more to benefit your skin than you ever thought a soap could do.

PARTY'S FATE PLACED ABOVE NATION'S GOOD

(Continued From Page One)
tion of the Panama-Pacific exposition which exempts American ships from tolls, or by suspension of that provision for a period of years.
Trust Bills Pending.
Consideration of trust bills and their perfection will continue during the week before committees in both houses.
Hearings will begin on Senator Owen's bill to prohibit the use of mails and telegraph and telephone lines for fraudulent or harmful stock exchange transactions.
House leaders are making every effort to clear the legislative slate in time for the proposed adjournment.
Immigration legislation will have the right of way this week in the house. The Burnett bill with the literacy test, which has aroused considerable opposition, will be taken up tomorrow. Chairman Burnett said today he expected the bill to pass substantially in its present form. A conference with the president on the subject has been ordered, however, by the state immigration committee.
Representative Baker of California was at work today perfecting his bill through which he hopes to effect the exclusion of the Japanese and other Asiatics and the certification of the limited number of them that may be allowed entry. He has waived any attempt to amend the Burnett bill in this direction, with a view to pressing for action as quickly as possible the straight issue of exclusion. The fight in the immigration committee over the proposition of hearings on the exclusion bill, so far deferred for diplomatic reasons, probably will be resumed next Thursday.

OFFICERS TO BE TRIED FOR KILLING STRIKERS

First Prosecution for Murder Charges in Michigan Copper Mine Region

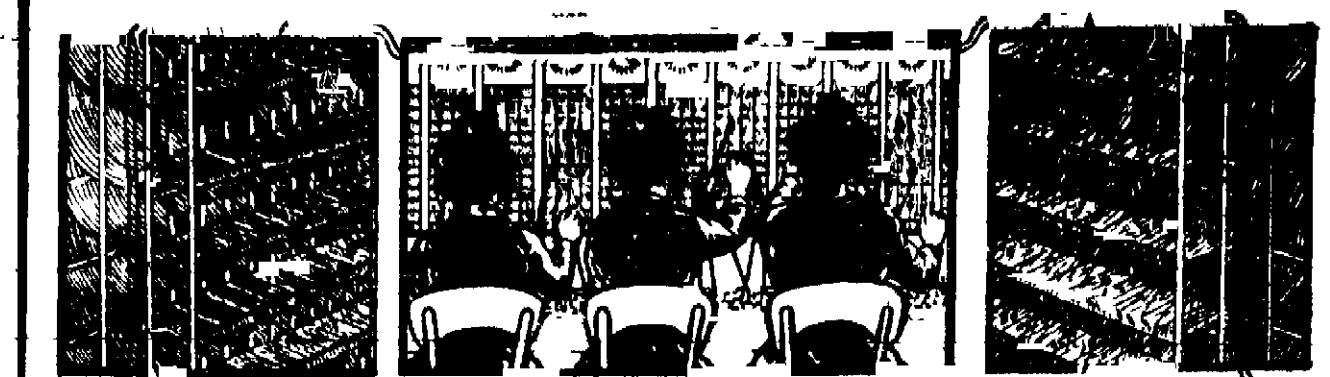

HOUGHTON, Mich., Feb. 1.—Six deputy sheriffs will be placed on trial tomorrow in the Houghton county circuit court, charged with murder in the second degree. They are accused of killing Adolph Tjian and Steve Putich, strikers, at the Seaboard location, near Painesdale, August 14.
Judge Flannigan, trial judge in the Roosevelt trial last spring, will preside. The defendants are Thomas Raleigh James Cooper, Arthur Davis, employees of the Waddell-Mahon corporation, Harry James and Edwin Polkinghorne, employees of Houghton county. It is said that the defense will be self-defense.
Tjian and Putich were the first men killed in the copper miners' strike, which began July 23, 1913.
Special Prosecutor Nichols asserted today that the trial will take at least three weeks.

MONROE DISREGARDED LAWS OF SEA, CHARGE

(Continued From Page One)
who died after she had been assigned to a stateroom with her husband and all possible care and attention was given her.
"It can be established that the steward, stewardess and chief engineer worked incessantly in an effort to save Mrs. Harrington. There was an attack made by Mr. Harrington on a lifeboat, and there is no foundation for this report. After her death her body was carried to Norfolk and witnesses in attendance were given in advance to take care of it."
Many of the passengers of the M. one received on board the Nantux would have died had they not been succored by those assigned to their duty. The report of statement by the captain that one of the Nantux's boats had a plank was not true, but the fact that the Nantux's boat returned with all the people they could find.

Sunken Steamer Located

NORFOLK, Va., Feb. 1.—The body of her single missing crew member, after the Old Dominion liner M. one was located today by a revenue cutter Onondaga. She was 3 miles south-west almost in the exact spot where the collision with the Nantux took place.
The wrecking tug T. J. Merritt, standing by the sunken ship and if the weather is favorable tomorrow she will send down two divers in an effort to recover bodies supposed to be in the wreck.
The P. and N. general manager of the Old Dominion line said today that the ship probably will be blown up to clear the path of navigation.

Our Investment
The telephone instrument on your wall or desk, the piece of wire, and the occasional pole you see, the voice of one operator you hear when you make a call, doesn't make a telephone system.
You see less than one-tenth of the things that are necessary for one single telephone message.
You see on the average only an investment of \$15.17.
It really costs us an average of \$162.00 to reach each subscriber.
Our investment, as shown in our last annual statement, is divided approximately as follows:
The part you see
Subscriber Station Equipment . . . \$2,332,964.00
The part you don't see
Switchboard and Central Office Equipment . . . \$2,774,541.35
Pole Lines . . . 7,769,946.51
Aerial Cables . . . 2,781,682.80
Aerial Wire . . . 6,168,824.97
Underground Cables and Ducts . . . 3,376,828.41
Real Estate and Buildings . . . 2,255,162.52
General Equipment . . . 266,500.59
Total . . . \$25,390,088.05
There are other things, too, that go to make up our total, such as right-of-way and supplies.

Roosevelt Sends a Big Consignment Specimens South American Hunt

NEW YORK, Feb. 1.—Two consignments of specimens of animal life slain in foreign jungles have been received by the American Museum of Natural History here. It was announced today—one from Theodore Roosevelt in South America and the other from Paul J. Rainey in British East Africa.
Twenty-five mammals including rabbits, deer and wolves and a mammoth guinea pig and 100 birds the fruits of one week's efforts by the Roosevelt expedition came as the colonel's first contribution from the South American wilds. The Rainey collection consisted of 12 birds, two cheetahs, a leopard, a striped hyena, eight jackals, a hyrax, a dik dik, three zebras, a red back five white-tailed mongoose and a number of other mammals.

Countess Molitor to Visit Arabian Desert

CAIRO, Feb. 1.—Countess Molitor, a Russian woman, has left here to cross Arabia from west to east. She intends to explore the whole of the Arabian desert.

IF BACKACHEY OR KIDNEYS BOTHER

EAT LESS MEAT ALSO TAKE GLASS OF SALTS BEFORE EATING BREAKFAST

Backache and kidney trouble are the most common ailments of the modern man. They are the result of a diet too rich in meat and a lack of exercise. The remedy is simple: eat less meat and take a glass of salts before breakfast. This will help to cleanse the system and keep the kidneys in good health. Dr. Williams' Pink Pills are a good remedy for these ailments.

MINE WORKERS ENTER ON THIRD WEEK CONVENTION

INDIANAPOLIS, Feb. 1.—Final session on the demands to be presented by the miners at the joint conference with the operators in Philadelphia which will start February 10 is the most important work that is left to be done during the coming week by the convention of the United Mine Workers in session here. The wage scale committee has been very busy for two weeks preparing the demands that the miners will ask to be incorporated in the new agreement. Besides the wage scale, there remains before the convention several proposed changes in the constitution and though the chances of passing the business of last night is not believed to be very good, it is not believed that the miners will leave the middle of the week.

MOYER IN DENVER FOR LABOR MEET

DENVER, Feb. 1.—Charles H. Moyer, president of the Western Federation of Miners, arrived here today for a convention of the labor union. He will be in Denver for several days.

ARTIST COMMITS SUICIDE

CONSIDERING THE FACT THAT THE artist had been suffering from a long illness, his suicide was not unexpected. He was found dead in his studio today.

--and the Worst Is Yet to Come

MIIE. PAVLOWA ADMIRE'S TANGO

TURKEY TROT? NO, IT'S SO UGLY!

MIIE. ANNA PAVLOWA

Russian Artist Says Popularity of Social Dancing Will Lead to Social Betterment

"Turkey trot—no. Tango, one step, hesitation waits—yes."

Thus Anna Pavlova, the greatest dancer of the age, who is practically responsible for the present all-pervading craze for social dancing in this country, expresses her opinion of the modern dances. To show how beautiful the oft-tortured steps of modern dancing may be, Mlle. Pavlova will do a society dance at each of her two performances at the Opera house next Saturday.

This new social dance, at present all the rage at the various kinds of dances in the east, is a combination of the tango and hesitation waits. It is danced to the music of Lincke's "Glow Worm." It is performed in director costume, and was introduced on the stage of the Metropolitan Opera house, New York, as Gavotte Director. But Manhattan society set upon it and called it Gavotte Pavlova.

SUSHI KEEP IT DARK; GROUNDHOG! IF HE SEES SHADOW—MORE WINTER

By EARL POTTER.

Keep it dark! What? Why, the sun. Today, February 2, is groundhog day and therein lies the reason. Yes, there's a reason. If the golden orb of day as the poet would raise it shines forth in resplendent glory this morning and the groundhog sees his shadow, then the poor old world will be doomed to another six weeks of flannels and father will still be found as per usual at the furnace door playing fireman at 4 o'clock in the a. m. If the sun doesn't shine, however, and the earth porter doesn't glimpse his form in shadow, then winter will soon be over and asparagus tea and little green onions will come into their own as harbingers of spring (pronounced "spring" at this time of year).

"The sun shines bright on my old Kentucky" is a very beautiful silver of sentiment, but the sun mustn't shine on the old home today if the world is going to be happy for the rest of the year. Better today be as dark as a Pittsburgh Master Lily or no clearer than the reason for the high price of coal.

gloomy, dark and dyspeptic looking if the ice man is to get any kind of a start at all this season. An opaque sky where the sun isn't shining will mean a shadowless appearance for the groundhog and pleasant weather in a hurry. It is possible that the coal man may try to slip one over and keep the street lights burning all day in case of a sunless dawn, but its up to the rest of the town to see that no ray of cheer pervades the atmosphere while the hog is abroad.

But after all, what difference is it really going to make whether the sun sparkles for 24 hours or not? Let there be light, or lack of light. The result to the people is going to be the same. Whether winter or spring comes for the next six weeks, what's the difference? If one prevails it means flannels; if the other prevails it's chiggers. What's the use?

GEN. GRANT WILSON DIES
NEW YORK, Feb. 1.—Gen. Grant Wilson, soldier, editor and author, who has been ill in St. Luke's hospital here for several weeks, died today.

General Wilson was 51 years old, and son of William Wilson, a Scotch poet, and was a veteran of the Civil war. Brevetted at first a brigadier general of volunteers, he laid down the sword and took up the pen.

EXPRESS COMPANIES

LOOK FOR BIG RUSH

Lower Rates Now in Effect Between Points Outside Colorado

The express companies in Colorado Springs have made preparations for a rush of business this week due to a big reduction in rates, which by order of the interstate commission, became effective yesterday for interstate business. The rates have been materially reduced, and many local firms that receive shipments by express have been holding back orders to take advantage of the rate reduction.

SPRING MEN TO ATTEND MORNING MEETING FEB. 19

Proposed Statewide Organization May Be Favored at Gathering to Be Held in Denver

Much later it is being manifested by local mining men in the Colorado Springs mining convention to be held in Denver, February 19, for the purpose of forming a statewide organization. The meeting is considered of much importance by mining men as the question of federal help in solving the ore problems of the state will be discussed. Opinion is among those engaged in mining that their industry has not received a just return for the amount of taxation paid by it. They want the government to give them aid similar to that furnished the farmer. They declare that the miner has to depend entirely upon his own resources in solving the problems of mining and ore extraction, while the farmer has had his problems of soil culture solved for him by the government at the latter's expense. Mining men in the state want to show the government how to increase the percentage of minerals recovered from their ore and how to make the recovery at a smaller cost.

T. B. Wilson Fired; to Quit Newspaper Game

T. B. Wilson, better known as "Pikes Peak Wilson," who for many years has conducted a paper on the slopes of Pikes Peak during the summer, will sell his property this week and quit the business for good. In advertising his sale, Wilson has issued one of the most unusual sale bills ever seen in the region. The bill is headed "Public Grief," and the announcement reads as follows: "Realizing that I am a 'Jeff' and a 'Mutt' combined, especially a mutt and a failure as a farmer, and wishing to retire from a noble profession that I have never really been in, I will offer for my office, etc., etc."

Survives

I. T. U. NO. 82 INVOLVEDS INTERNATIONAL TICKET

Scott, Barrett and Hays Choice of Colorado Springs Union Prints. Election to Be Held in May

At a regular meeting of the local typographical union, No. 82, held yesterday afternoon, the administration ticket for international officers, headed by W. A. G. Scott of New York City for president, Walter W. Barrett of Chicago for first vice president, and John W. Hays of Minneapolis for secretary-treasurer, was endorsed for nomination by practically a unanimous vote. Thomas McCaffery of this city was likewise endorsed for the office of trustee of the Union Printers home, a position he has held for many years. The biennial election of the International Typographical union will be held by referendum vote on the third Wednesday of May this year.

Brotherhoods to Give Supper and Program

The annual supper of the federated brotherhoods of the city, and the program that goes with it is attracting much attention among churchmen. The series of addresses on civic matters by the mayor, the deputy district attorney and the assistant attorney with that by C. P. Dodge, on the brotherhood itself, constitute a program such as has never before been offered to local men by any church organization. Music will be furnished by the Temple quartet. The supper will be held in the First Presbyterian church at 8 o'clock tomorrow evening. The program will immediately follow the supper. Men of the city who are not affiliated with any of the brotherhoods may make reservations for the supper by applying to Charles Chapman at the city hall.

Extension Lectures to Begin February 10

The annual course of extension lectures at Colorado college will begin this year on Tuesday, February 10 and will continue until May, with a lecture twice a month. The course will be opened by Dr. W. F. Stoum who will speak on "International Arbitration and The Hague Conference." Dr. Stoum has spoken on this subject before.

G. A. R. Celebrates McKinley Anniversary

Services in commemoration of the birthday of William McKinley were held yesterday morning at Christ Universalist church and there was a large attendance. The G. A. R. and W. R. C. were largely represented at the meeting. The national McKinley's favorite flower, and the national colors were used as decorations. The Rev. Charlotte D. Croley spoke on the life and character of the martyred president, and spoke feelingly of her personal acquaintance with him.

one or two organizations in the city, but his address has never been open to the public. At the request of a great many people, he will now give the address as the opening lecture of the college extension course, when it can be heard by all persons interested. The lecture will be given in Perkins hall and as is the case with all lectures of the course it is open to the public without charge.

I Cure Piles

Permanently, by simple local treatments. No knife, no chloroform, no danger, thousands of cured patients in all parts of Colorado. Established 18 years, 2000 6-page booklet will give particulars. Call or write for it. DR. J. F. BOWERS, BATH PLAZA, COLO.

ORATORIO "MOSES" TO BE STAGED IN THE U. S.

SAN FRANCISCO, Feb. 1.—It was announced today that "Moses" an oratorio written and composed by Father Peroni, choirmaster to the pope in the Vatican, will be staged at the Greek theater in Berkeley this summer. The oratorio has never been presented outside the Vatican and a special dispensation from the pope was granted for this production.

CONCERT YESTERDAY BEST OF THE SEASON

Orchestra - Plays Brilliantly and Many Encores Were Demanded

The programs given by the Colorado Springs Musical club orchestra always have been exceptionally good, both as to selection of music and execution. But those who went to The Burns yesterday afternoon heard one of the finest concerts ever given in Colorado Springs at least, by a local organization. Director Dietrich evidently had worked long and hard in perfecting the program, and after the concert he must have felt well rewarded, for every selection was played with a finish that won prolonged and hearty praise from the audience which completely filled the house.

The Peer Gynt suite, Grieg, without doubt was the best number on the program. And it was the favorite with the audience. The insistent demand for an encore after the last part was one that could not be denied. And even after the encore was granted, the audience demanded more. Especially pleasing in the suite was the part, "In the Hall of the Mountain King," although the first part, "Morning," was exceptionally well played.

W. H. PERKINS DIES
DENVER, Feb. 1.—W. H. Perkins, 73 years of age, veteran of the Civil war, died at his home here today. Mr. Perkins was an orderly to Gen. U. S. Grant during the battle of Vicksburg, went to the war from Iowa, where he raised the Fourth Iowa cavalry. He was born on a farm near Indian.

Daily Fashion Note.

Copyright, 1914, by The Criterion of Fashion. NEW YORK FEB. 2, 1914

Dear Mary:—

"Give me a look give me a face. That makes simplicity a grace." How deliberately women today are kicking over the poets' heads. Only a short time ago, if you remember, we would have considered it very embarrassing to see the least, to be caught in the act of powdering the tips of our noses, but now we think nothing of asking our male escorts to hold our belongings while we pink before the mirror and add a touch of rouge to our lips and a dash of powder to our noses. If this newest of fads catches on, a camel's hair brush will take the place of the powder puff in our vanity boxes and we shall be inviting our artistically inclined friends and acquaintances to add a spot to the leopard or a kink to the lion's tail.

"This which I am sending you is not a veil, the figures are actually painted on milled pink and white forehead in ultramarine blue. The fascinating Russian who is credited with originating this startling innovation says that pictures painted on the face will soften the lines and lend brightness to the eyes. Any favored outfit may be used, be it bird, flower or fish, but the color must be blue.

Before clothes were invented the ancient Britons used to decorate their bodies with queer figures and designs wrought out in blue wood or vegetable dye. Do you think there is any danger of this un-dress uniform coming back? Your troupeful, ADELE.

WILL OBSERVE C. E. WEEK AT PRESBYTERIAN CHURCH

Christian Endeavor work will be observed at the Second Presbyterian church beginning today and all services will be in charge of members of the Christian Endeavor society. At 7 o'clock the hymns will be sung, followed by a devotion, a reading of the Bible, a prayer, and a song. The service will be held in the church building.

Where the Press Agit Say

VAUDEVILLE OPERA HOUSE

Commencing at 7:30 o'clock this evening refined vaudeville again will be offered to local theatergoers at popular prices at the Opera house under the personal supervision of Manager P. K. K.

The opening bill is headed by Captain Lick and his famous troupe of trained seals and sea lions. This alone should be sufficient inducement to attract capacity crowds for the first three days it runs.

The Whitting Duo, classic entertainers, are a sure-fire hit with their fine musical act. They have never appeared in Colorado Springs before, and will undoubtedly add to their already long list of admirers after their appearance here.

The Aldouns present a most daring and robaic turn, interpolated with some real comedy. First and Second offer all the latest dance crazes. Mr. First is a truly great Hebrew impersonator and never fails to get away big Marie Casey, a winsome little miss of 18 summers is well known as a comedienne in this city, having appeared here in musical comedy. She has an entirely new repertoire of late songs which she sings in a pleasing manner. In addition to this a reel of Crystal comedies will be shown. The Opera house orchestra will furnish the music.

WOODS HUTCHINSON TROUPE

It but a small percentage of Colorado Springs people who have been interested in the articles which Dr. Woods Hutchinson has been contributing to magazines during the last few years attend his lecture here Wednesday night he will have an exceptionally large audience. Dr. Hutchinson has created a new kind of article on health subjects and his work along this line is so entirely original and so stamped with his individuality that he has as yet not even an imitator.

All matters of hygienic concern food, clothes, house and its cure, which all have been previously treated in a sober, dull and matter of fact manner, even when prepared for the general reader have under Dr. Hutchinson's witty pen taken on an unusual, as well as the latest novel and a refreshing content of good humor, which while light never sacrifices accuracy to fun.

The same qualities which have made Dr. Woods Hutchinson a famous name have found expression in even greater degree in his lectures. The doctor has shared the honors at dinners and convalescents with some of the highest public opinion and whatever the occasion has always proven an exceptionally successful thought and winning speaker. In fact, so greatly is he in demand as a writer and lecturer that he has for several years been giving all his time to his work.

One of the most popular lectures is that on which is entitled "Woman and Clothes." At first, on the surface, it appears to be a lecture on the most popular of all subjects, which has so often been a subject of conversation. The doctor's lecture is not a lecture on the subject of dress, but a lecture on the subject of the human body, and a lecture on the subject of the human mind, and a lecture on the subject of the human soul.
